Avaz began its journey in 2009 with the Avaz AAC system. A hardware-based device developed in India with input from over 500 children and special educators. While AAC solutions in other countries started at over $5000 apiece, Avaz pioneered a solution costing only ¹⁄₁₀th of that.

With the advent of the iPad, **Avaz AAC** evolved into an iOS software in 2011. Avaz AAC for iPad was a runaway success, changing the lives of users across the world.

As of 2019, Avaz AAC is available across iOS & Android platforms and, devices. **It is available in over 13 languages and used by children, adults, speech-therapists and other users of AAC globally.**

Today, **Avaz** is an Assistive Technology and AAC powerhouse. Through our technological innovations, we are making a real difference in the lives of children and adults.

Avaz's FreeSpeech app is the world's first and only grammar prediction app. It is a pathbreaking solution that makes language and grammar learning fun and engaging.

Our **MDA Avaz Reader** is powered by 20+ years of expertise and research in dyslexia. It enables children with dyslexia to read independently, transforming them into confident learners.

Each of Avaz Inc.'s creations focuses on breaking down socially imposed barriers in learning and communication.

Avaz Inc is proud to partner YOU in your mission to make access and inclusion an everyday reality!

avaz

Award-winning
AAC app powering communication around the world!

Avaz Inc.'s flagship product, **Avaz AAC** picture & text-based AAC app. It empowers children and adults with a voice of their own. **Avaz AAC** is used by communicators with autism, Down syndrome, cerebral palsy and other speech-related difficulties.

Packed with innovative and user friendly features, Avaz AAC is suitable for individuals at every step of their communication journey.

EASY TO CUSTOMIZE & PERSONALIZE
Avaz AAC can be easily customized to suit a child's learning style and pace. Mix & match settings to make Avaz effective for the learner. Personalization enables you to add words and phrases relevant to the child's life.

COMPREHENSIVE CORE WORDS LIBRARY
The exhaustive core words library is laid out in an order based on years of extensive research. Hence, users grow steadily from using one-word, to full sentences, on the same app!

SWITCH BETWEEN PICTURE MODE & KEYBOARD MODE
Avaz AAC grows with the user! The picture mode in Avaz AAC allows the communicator to quickly tap pictures to create sentences. Keyboard mode allows faster and more efficient communication for intermediate and advanced users. Just tap letters to create words and the app predicts the next word!

FEATURE RICH DASHBOARD
The powerful Dashboard handholds AAC users, parents, therapists and caregivers to familiarize themselves with the app. It provides guidance for modelling in several real-life scenarios. A potent Analytics tool tracks user growth over time. Communication Adventures, a revolutionary in-app game trains communication partners to support users in their communication journey.
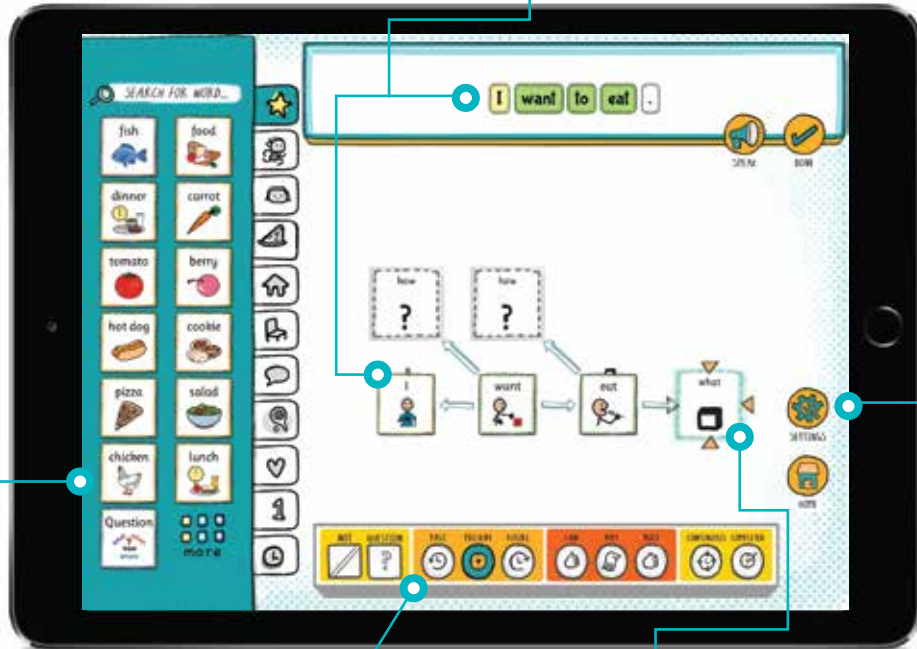

CREATES SENTENCES AUTOMATICALLY USING PICTURES

CAN BE CUSTOMIZED BASED ON THE LEARNER'S NEEDS

PREDICTS WORDS THAT THE STUDENT CAN USE TO EXTEND THE SENTENCE

MODIFIERS TO CHANGE THE TENSE OF THE SENTENCE, NEGATE IT, MAKE IT INTO A QUESTION

PROMPTS THE STUDENT TO EXTEND THE SENTENCE

Avaz Freespeech

FreeSpeech has been featured by Apple as the #1 Education App on the App Store.

AVAILABLE ON APPSTORE

FreeSpeech can be downloaded on any Android smartphone or tablet as well as on Apple iPads.

Avaz FreeSpeech

Make language & grammar building fun, with the world's first and only grammar prediction app!

FreeSpeech is a game changing, language learning app. Its powerful grammar engine creates a perfect, grammatically sound English sentence EVERY TIME. The user simply has to drag and rearrange picture tiles they want to use in a sentence and the app will do the rest!

Language is not just about learning words. It is about learning to put those words together.

FreeSpeech is a fun, visually rich way to explore the grammatical properties of the English language. Learn tenses, sentence forms, parts of speech, and so much more!

A powerful new app designed to help children of all learning levels and language abilities develop grammatically correct sentences... A welcome addition for anyone with young writers that struggle with arranging sentences or who have a language impairment that makes it frustrating to communicate.

– SmartAppsForKids

FREESPEECH BUILDS LANGUAGE BY:

EXPANDING: Prompting users with questions to expand their sentences.

SCAFFOLDING: Intelligently predicting words that they are likely to use.

CONTRASTING: Visually modeling tense and sentence modifiers.

RECASTING: Move the words around like building blocks.

ERRORLESS MODELING: Speaks out a grammatically correct partial sentence giving students let's errorless English practice.

---

avaz READER

Enabling children to read independently!

MDA Avaz Reader is an app that supports children with learning disabilities to read better. The Reader app is based on 20+ years of research and practice carried out by the **Madras Dyslexia Association (MDA)**. In collaboration with MDA, Reader app brings together *expertise backed learning strategies* with state of the art technology.

USE ANY TEXT!
Reader will translate the text captured as a picture into a readable format. This feature can be used to read any printed material – be it storybooks, textbooks, newspapers & so much more. All you need to do is take a photo of any printed text or import a PDF document.

DOWNLOAD EXCITING STORIES
With Reader, you can download stories with rich vocabulary and captivating images! These stories have been specially curated to stimulate the imagination of young children and motivate them to read.

FINGER READING SUPPORT
Reader app's finger-reading support enables the child to track words and sentences they are reading. The high-quality text to speech Auto-Read feature reads the text out loud as the child follows the text in the book.

GIVES A HELPFUL NUDGE
Reader app provides research-based support and hints to enable individuals with dyslexia to read and comprehend the text better.

STRESS FREE READING!
Reader app promotes stress-free reading by removing distractions from the page, creating an environment that encourages the child to read.
